Let's Talk Lotto Dinner

Most all of you know what the Lotto Dinner is. We have some new folks that might not know what the lotto dinner. We have been playing our brand of lotto since former Chapter Directors Don & Judi Black came up with it. The rules for playing are simple. We use a Crown Royal bag to hold the 10 white poker chips and 1 red poker chip. The white chips have a number from 1 to 10. These numbers correspond to 10 local restaurants. To begin the game one ticket is issued to everyone eligible to play. They put their name on the ticket and turn it in with \$1.00. All of this takes place usually before everyone orders dinner. At a time when a waiter or waitress is not busy, I will have the camera person take a picture of the waitperson pulling a ticket, which I conceal inside an envelope. After finishing dinner, I will announce the name on the ticket pulled by the waitstaff. At this time, the person whose name was pull, will have the opportunity to pull a chip from the Crown Rayal bag. This is where the red chip comes in. If a white ticket is pulled, the number on the chip will be the restaurant we go to the next month. Everyone wants the chance to pull the red chip because the red chip is the winner of the Lotto Dinner pot.

Now a couple of rudimentary rules on eligibility to play Lotto. When the pot is empty, anyone in the chapter with current EWMA Membership is eligible to play. Once the pot gets up to over \$50.00 a member who has not played before must attend 3 months of lotto play dinners before becoming eligible to play. Once the pot goes over \$250.00 one white chip will be removed from the game. After \$300.00 another white chip will be removed from the game and so on after each \$50.00 increment.

We hope you are making plans to attend the 3rd Annual Florida District Gathering of Friends for FUN, Safety & Riding March 13, 14 & 15 2025, Best Western Gateway Grand Hotel & Conference Center. Buckle Your Helmets and Fasten Your Fringe – Our Roaring 20's Ride is about to begin! Information about Hotel and Rally registration are on the District Website @ ewma-florida.org.

We hope to see you at an EWMA event in 2024,

Ed & Jeanette Carr, Directors

From the Assistant Director

Bob & Julie Ahearn, FL1-K Asst. Chapter Directors

We have been home since the 9th of July. Julie is on the mend, and she is slowly moving around while using the walker. If we must go anywhere, we have a new wheelchair so I can push her around.

Last month, we found out my brother and his family had Covid. There's a new strain out there and the number of people catching it is increasing. We spent a few hours with him a few days before, so we quarantined to make sure we did not have it or infected anyone else.

We turned out okay, no issues, and my brother and his family finally recovered and are doing fine.

There will be an updated vaccine available soon for folks that need to update their shots.

This month we are still planning to attend the North Carolina Rally, "Wings Over the Smokies", scheduled for the 20th and 21st of September in Browns Summit.

Julie and I will depart Wednesday the 18th with an overnight stay at "Tideland Brewing" in North Charleston South Carolina. We'll have the RV with the Trike in tow.

The following day, we'll arrive at the Greensboro KOA for our stay during the Rally.

Julie and our Maltese named Hannah will remain in the RV while I will be representing our Chapter at the Rally for a small amount of time over the two days.

After the Rally, we'll be heading an hour south to Sycamore Lodge RV Resort and Campgrounds located in Jackson Springs until the end of the month.

It'll be a nice time for Julie to just relax and keep recovering from her surgery.

Next month, we'll be attending the Mississippi Rally, scheduled for October 24th through 26th in Biloxi. The Rally is being held at the same location as last year, the St Martin Community Center.

We'll be leaving a day early on Wednesday the 23rd, heading to the Rally a day early and staying at the same campground as last year...the "Biloxi Bay RV Resort" located only 1.1 miles from the Rally.

Like last year, before we depart the area, we'll visit the "Hard Rock Hotel and Casino" to enjoy lunch and play some Poker machines!

We added another Rally to our 2025 schedule:

- June 26th to 28th: Alabama District Rally

- Rally site and Host Hotel – Clarion Inn-Sheffield-Muscle Shoals, 4900 Hatch Blvd, Sheffield AL 35660
- Theme: Roaring 20's
- Thursday night dinner (\$29 pp)
- Area attractions include
 - Alabama Music Hall of Fame
 - Helen Keller Home
 - Rattle Snake Saloon
 - Jessie Owens Memorial Park

(Continued on page 4)

(Continued from page 3)

- Coon Dog Cemetery
- Indian Mound & Museum
- Wilson Lock & Dam
- Old Railroad Bridge

Our registration is already mailed to the AL District, and we have reservations at a campground just 11 miles away.

Here's a few more random photographs from our summer trip...

On The Lighter Side

Three boys are in the school yard bragging about their fathers.

The first boy says, "My Dad scribbles a few words on a piece of paper. He calls it a poem. They give him \$50."

The second boy says, "That's nothing. My Dad scribbles a few words on piece of paper. He calls it a song. They give him \$100."

The third boy says, "I got you both beat. My Dad scribbles a few words on a piece of paper. He calls it a sermon, and it takes eight people to collect all the money!"

Attending a wedding for the first time, a little girl whispered to her mother, "Why is the bride dressed in white?"

The mother replied, "Because white is the color of happiness, and today is the happiest day of her life."

The child thought about this for a moment then said, "So why is the groom wearing black?"

While cleaning the attic, Joan and Harry found an old stub for some shoes they left at the repair shop 10 years ago.

They thought it would be funny to go to the shop and see if the shoes were still there. So they did.

They handed the stub to the repair man who took it and looked in the back. He came out again and said, "They'll be ready on Wednesday."

American Flags

If you have any torn, tattered, or discolored flags of any size, please give them to me. I will gladly have them disposed of properly, DO NOT put into trash.

Thank you.

NEWS FROM CANADA

Girls Know How to Have FUN!

Since heading north for the summer months, Barry, Faye, and Jenna Watson have enjoyed riding time. For Faye's first ride it was cool but she was dressed for a fun time. Faye also got to enjoy time with "Elvis". Thanks for the photos, Barry

JENNA'S ANNUAL RIDE & BBQ

This is a fun weekend event that Jenna hosts annually. Friday caused the group to stay close but Saturday the 5 hour ride around the Ottawa Valley was a perfect day. Afterwards there was a BBQ, Bonfire, and sleepover. A good time was had by all.

Safety Article

Dominick & Diane Desiato

TIME=DISTANCE

Greetings to all!

You can't change the laws of physics. It takes a certain amount of distance to stop your motorcycle in an emergency. The size of the motorcycle doesn't really change the stopping distance because the manufacturers take stopping distance into account when they are determining the size of the bikes brakes and tires. The heavier the motorcycle the larger the brake rotors, brake pads, and tires will be. Therefore all motorcycles regardless of size should stop in about the same distance at any given speed.

One thing that adds to stopping distance is reaction time. If you delay in identifying a problem you will delay in applying the brakes. Therefore you will travel further than you should have in an emergency stop. This can mean the difference between hitting the car that just turned left in front of you or not.

I will give you an example of this with a motorcycle that is traveling 45mph which is a common speed. If the motorcyclist does not delay his/her reaction time, a motorcycle should stop in 90 feet at 45mph. If the rider delays in applying the brakes by one second the stopping distance increases to 156 feet. If the rider delays in applying the brakes by two seconds the braking distance increases to 222 feet. I think you get the idea. That can mean the difference between being able to stop before you broadside the car that just turned left in front of you, or hitting it. If you skid one or both tires during the stop you are also adding more distance to your stop. That is why an ABS Braking System is such a great thing to have. It stops the tires from skidding, but the ABS System can't help you if you are delayed in applying the brakes.

The time to be at your best alert status is when you are going through an intersection. An intersection is where motorcycles and cars crash together the most. Setting up a good lane position can also be very helpful to prevent a crash. Position your motorcycle in your lane to where the approaching left turn vehicle driver can see you best and early enough to hopefully stop them from making the turn in front of you. Watch the turning wheels of the approaching vehicle rather than making eye contact with the driver. You might think the driver is looking at you, but he/she might just be looking through you. The wheels are either turning or not. Watching the wheels is a much better identifying clue to follow. Always be prepared to swerve if the car does make the turn. Have more than one escape path predetermined in your mind should the car turn. Your escape path options are fluid based on the circumstances at that exact moment. You might escape hitting the car by swerving behind the vehicle or even possibly swerving in front of the vehicle should it finally stop. Remember it would be only natural to go for the brakes first to avoid hitting the car. But, if you realize you are running out of room, and you now decide to swerve, you must get completely off the brakes before you initiate a swerve. The tires can't handle the traction stress of being loaded with maximum braking and adding a swerve at the same time. You must separate braking from swerving should you decide you need to swerve. If you don't separate braking from swerving the tires are likely to lose traction and you are going down. It's not a perfect world, so you must be as ready as possible.

From The Membership

Canada - U.S. Ride In

from Barry Watson

Howard Towne & Dennis Mass left Daytona while Barry & Faye left their home on Lake Clear near Eganville, Ontario to meet at Jim & JoAnne Eshenbergs' campground "Merry Knoll" in Clayton, NY.

Friday's ride was 188 miles along the St. Lawrence River. They watched a boat go through the lock & found a biker friendly place for lunch.

Saturday's ride was a little shorter but a great ride along the south shore of Lake Ontario. Lunch, of course, was the mid-point of the ride.

Watson's are headed next for a quick visit to Daytona but Howard & Dennis will stay till Labor Day & then ride with Roger Donnally in TN before heading home.

(Continued from page 8)

Now you know what the stopping distance should be at 45mph which is 90 feet. Find a place out of traffic you can practice. Mark off where you will apply the brakes and mark 90 feet from there as to where you should be able to stop. Get moving and level off your speed at 45mph. Apply your brakes as hard as possible just short of skidding at the braking start point. See if you can come to a complete stop at or before the 90ft stop point. It is better to find out whether or not you can properly stop under controlled safe conditions rather than when the car turns left in front of you at an intersection.

Riding skills perish if you do not regularly practice.

*Ride safe & wave,
Dominick & Diane*
