From the Director's Chair

Ed & Jeanette Carr, FL1-K Chapter Directors

I'm really liking the temperatures around here lately. You get used to the hot weather for so long that it doesn't take much of a change to feel the difference. I know we will still see temperatures into the 90's but at least it will cool down at night. This is my favorite time of the year with Halloween, Thanksgiving, Christmas, and New Year's all coming up. Also coming in November will be Veterans day on the 11th. Veterans, if you have an military themed shirts and or caps, please wear them to the November Social Gathering. All those days off, Yeah!

We are not having a December 2024 Gathering, per say, but it will be replaced by the Holiday Party on December 7th. This will be a time for socializing and having fun. And a time for the Chapter to give a little back to the membership. The Chapter will be providing ham, turkey, coffee, tea and more. So, we hope you will join us for this festive occasion. That's 7 December, from 1pm to 5pm. For more details about the Christmas party, see the Member Benefits article in this Chapter Newsletter. Jeanette and I had a great visit with our daughter, Jauxniece and her spouse TR in Atlanta. Upon returning home a couple of weeks ago, we got home on Sunday night, and left Tuesday morning on the trike, for the Mississippi Rally in Biloxi, MS. We had a great time in Mississippi with Asst Chapter Directors Bob & Julie A'Hearn. As I write this article, it is Halloween, and we have to go out and greet all the Children of the Neighborhood.

On November 11th, 2024 Veterans Day, something to remember :

From the Assistant Director

Bob & Julie Ahearn, FL1-K Asst. Chapter Directors

Welcome to November. This month our plans include a multiple chapter luncheon, Veterans Day, a local camping trip, Lotto Dinner, and finally Thanksgiving, signaling the start of the holiday season.

Veteran's Day is celebrated on the 11th, to honor those who have served in the military. It was formally known as Armistice Day, originally set as a legal holiday to honor the end of WW1, which took place on November 11, 1918 (the 11th hour of the 11th day of the 11th month).

[DeyiMizu: Happy](#)

We send "Thanks for Your Service" to all our veterans out there. Julie and I are retired from the Navy and plan to enjoy the establishments honoring Veterans. Check out the lists of participating restaurants on the web.

Mid-month, Julie and I will take the RV and Trike for a local campout at the "North Beach Camp Resort", off Coastal Highway in St. Augustine.

The campground is located on 30 heavily wooded acres on a barrier island between the saltwater North River and the Atlantic Ocean. There is plenty of shade and privacy with their moss-laded Oaks and Palmettoes. They also have their own ship, the Victory III, offering St. Augustine Scenic Cruises.

"Aunt Kate's Restaurant" is located on the property, which is one of the favorite chapter lunch ride destinations. Also, across the street is the "Reef Restaurant", offering oceanfront casual dining.

So, we'll have plenty of opportunities to enjoy meals while relaxing by the ocean.

We hope everyone has a great Thanksgiving and can spend the holiday with family and friends. We plan to spend the day with my brother and his wife only 10 minutes down the road from us.

Last month we attended the District Mississippi Rally in Biloxi. It was nice to finally get back on the road and spend some time with our Chapter Directors, Ed and Jeanette.

We stayed at the "Biloxi Bay RV Resort", located only 1.1 miles from the Rally held at the St Martin Community Center.

Thursday night, Ed

and Jeanette led a ride to a favorite dinner location, “The Shrimp Basket” in Gulf Shores. After dinner we enjoyed a nice scenic ride on Route 90 next to the ocean before returning to the Rally for the Costume Contest.

During the Costume Contest, Julie and I were judges, along with another couple. We graded best male, best female, best couple and finally best group. It was lots of fun and we enjoyed participating in the event.

We also participated in the guided ride along the marinas, parks and ocean, ending up for lunch at “The Shed” BBQ and Blues Joint in Ocean Springs.

We both chowed down on the pulled Pork Plate with two sides. Julies sides included [Sweet Potato Casserole](#), and Coleslaw. My choices included the Sweet Potato Casserole and G-Maw’s Baked Beans. The BBQ was excellent and if you are ever in this area, check it out!!

Saturday after the rally, we returned to the campground to get ready for the Halloween events for the kids, and the adults. The RV decorations this year were fantastic! We’re not too sure who enjoyed the festivities more...the kids or the adults.

(Continued on page 5)

(Continued from page 4)

We stayed an extra day and enjoyed lunch at the “Hard Rock Casino”. Once lunch was done, we decided to try our luck on the Poker machines in the Casino. After a few hours of fun, and donating our fair share to the Casino, we returned to the campground to start packing up for our return home the next morning.

The day after our return home, we returned to Mayo Hospital for the GI appointment for Julie’s blood hemoglobin issue.

The Endoscopy found two bleeding Ulcers, which were clipped, and two other lesions were discovered during the Capsule Study.

We are hopeful that they were the cause of the issues. We will monitor for the next three months.

Next month, will be our Chapter Christmas Party planned for Saturday afternoon, the 7th of December.

Last year was the first time we attended and had a nice evening. We even participated in the gift exchange. Looking forward to this year’s party!

Enjoy the holidays and be careful out there!

On The Lighter Side

- What did one pumpkin pie say to the other? "You wanna piece of me?"
- What do you call a sad cranberry? A blueberry.
- What did the autumn leaf say to the tree? "I'm falling for you."
- Did you hear about the Thanksgiving engagement ring? It's 24 carrots.
- What happens when potatoes drink too much? They get mashed.
- What kind of music do Pilgrims listen to? Plymouth rock.
- Why did the cranberry blush? It saw the turkey dressing.
- Why should you never tell secrets in a cornfield? There are too many ears around.
- What did the shocked pumpkin say to the squash? "Oh my gourd!"
- What did the scarecrow wear to Thanksgiving? A har-vest.
- What's the best way to fix a broken pumpkin? Use a pumpkin patch.
- What did one turkey say to the other? "Let's get basted!"
- How do Pilgrims kick a bad habit? They stop cold turkey.
- Knock, knock! *Who's there?* Norma Lee. *Norma Lee who?* Norma Lee I don't eat this much.
- Knock, knock! *Who's there?* Arthur. *Arthur who?* Arthur any more cranberries?
- Knock, knock! *Who's there?* Annie. *Annie who?* Annie body want pumpkin pie?

On this Veterans Day, let us remember the service of our veterans, and let us renew our national promise to fulfill our sacred obligations to our veterans and their families who have sacrificed so much so that we can live free.

Safety Article

SEARCH, SETUP, & SMOOTH

Greetings to all!

I recently read an article where a Slingshot 3-Wheel vehicle crashed in a curve on the Dragon's Tail and the driver died. Whether you are on a two-wheeled motorcycle, a trike, or any of the other kind of three-wheeled vehicles available today, the way you negotiate a curve is of critical importance.

Search, Setup, & Smooth is the procedure to use when approaching a curve:

SEARCH-Look for clues that tell you how sharp the curve ahead is. Road warning signs are the first thing to look for. If the recommended speed on the sign is very low that means the curve is very sharp. Some roads do not have any warning signs. So how do you approach a curve with no warning sign? Look ahead around the curve as far as you can. If you cannot see very far around the curve that means it is pretty sharp. Slow down as you approach. No one gets in trouble for slowing down too much before entering a curve. They only get in trouble if they do not slow down enough. Once you are already in a lean and centrifugal force is pushing you out of the curve, is not the time to try to make a slowing down speed adjustments. Your tires can only handle a certain amount of traction force. Your tires are using a certain amount of traction to hold you in the curve. They might not be able to handle any additional traction stress you might put on them by down shifting and/or braking. If realize you slowed down too much you can always safely increase speed in a curve. Acceleration puts extra down force on your tires which is a good thing.

SETUP-Position your motorcycle to the outside of the curve so you can see the furthest around the curve. Look for debris or broken pavement sometimes found on the outside edge of the roadway and adjust your position accordingly.

SMOOTH-You should have adjusted your entry speed so you can either maintain a steady throttle or what is even better is to gradually roll on the throttle. This puts a downward force on your tires giving you maximum available traction.

The next thing to evaluate is what type of radius the curve has you are about to enter. Is it a Constant Radius curve (the apex is in the middle). An Increasing Radius curve (the apex is early). Or a Decreasing Radius curve (the apex is late). So the next thing to understand is the meaning of the word "apex". The meaning of the word "apex" as associated with a curve is the point in the curve when you are no longer entering the curve, but you are now exiting the curve. This all sounds good with words but how do you identify where the apex is when you are on the move. Here is the simple solution: Enter all curves on the outside edge and stay there. Look ahead for the straightaway. As soon as you can see the straightaway you are at the apex. Immediately cut to the inside of the curve and continue to the straightaway. You should be exiting on the outside of the curve onto the straightaway. (An Outside, Inside, Outside path of travel) You often don't know if the curve ahead is a Constant Radius, Increasing Radius, or Decreasing Radius curve. If you use the method of negotiating the curve the way I have described you should not have any problem. You won't actually be able to identify what type of curve it was until you are leaving the curve based on where in the curve you were when you were able to cut back to the inside of the curve when you saw the straightaway.

(Continued on page 10)

(Continued from page 9)

A motorcyclist crashing in a curve is the second biggest reason we crash. Not properly setting up and negotiating the curve properly is usually the reason.

We are here to assist you with any type of safety presentations: Rider training, Parking Lot Practices, and First Aid CPR Classes. We have short Classroom Presentations on many different subjects which could be given at one of your monthly gatherings. We would be happy to travel. Just contact us and tell us what you would like and we will make it happen.

*Ride safe & wave,
